Safety Manual

In 2006 the College of Science employed a company called Streamliners to develop and maintain Departmental Safety Manuals. This resulted in several interactive online documents with links to forms, as well as PDF versions for printing and distribution to students.

- Interactive document is available on the UC intranet at: https://intranet.canterbury.ac.nz/sc...nual/index.htm.
- PDF version is available at: http://www.geog.canterbury.ac.nz/safety_manual.pdf.

Forms

This page was intended to store Geography safety forms centrally and in their original format so we can edit and update them.

Streamliners link to these forms via our online Safety Manual at https://intranet.canterbury.ac.nz/science/CoS_Safety_manual/forms. This link cannot be browsed to, but it may be possible for us to get the permissions to update the forms ourselves, providing we keep the same file and path name.
