phyml 20120412 installed

The MPI version of phyml is now installed on the AIX power7 cluster. This is alpha code - check your results carefully! The manual is here and here is an example loadleveler script to run phytime:

```sh
#!/bin/sh
# @ output = $(Executable).$(Cluster).out
# @ error = $(Executable).$(Cluster).err
# @ notification = never
# @ job_type = parallel
# @ class = p7aix_dev
# @ group = UC
# @ blocking = unlimited
# @ wall_clock_limit = 00:33:00
# @ total_tasks = 8
# @ rset = rset_mcm_affinity
# @ mcm_affinity_options = mcm_accumulate,mcm_mem_pref
# @ queue

# This is a quick test:
/usr/local/bin/phytime -i seq1.txt
```
