

Naxos

Linking to a CD

1. Perform a Keyword search e. g. *Endres Gershwin*
2. At the bottom of the search results, notice the **Static URL to Cat. No.** button. Clicking on this will give you the static URLs to all the CDs in the search result.
3. Copy the static URL for the CD you want to link to.
4. Paste the static URL into the form below and click the **Modify link** button.
5. Copy and paste the resulting modified URL into your Learn page.

Linking to a track

1. Find and select the CD.
2. When the CD page opens, click the **View static URLs** button on the left hand menu (under the album art). This will reveal a list of the static URLs for all the tracks on CD. N.B. In the case of a multi-track work such as a symphony, a URL is supplied for the complete work and different URLs for the individual movements e.g. see Lilburn: Symphonies Nos. 1-3).
3. Copy the static URL for the track you want to link to.
4. Paste the static URL into the form below and click **Modify link** button.
5. Copy and paste the resulting modified URL into your Learn page.

Unknown macro: 'html-include'

Paste the link

Paste the modified link into your web pages
