Guidelines

Guidelines for the use of the University of Canterbury wiki

- This wiki is intended to be used as a collaborative workspace and not replace regular webpages or be a personal webpage.
- It will normally carry some University of Canterbury branding and should promote the University in a positive manner.
- The administrator of each wiki space will be ultimately responsible for the material presented there.
- The adminstrator of each wiki space is responsible for setting up appropriate protocols for their space and monitoring behaviour.
- Generally speaking, the University's Computer Use Policy and Procedures (see UoC Policy Library) apply to wiki spaces.
