

Setting up Advanced Connection to Kupe

1. Open your ssh config using desired tool

```
vim ~/.ssh/config
```

2. Append the lines below, and **"change the user"**:

```
Host kupe
  User ykh22
  Hostname login.kupe.niwa.co.nz
  ProxyCommand ssh -W %h:%p %r@lander.nesi.org.nz
  ForwardX11 yes
  ForwardX11Trusted yes
  ServerAliveInterval 120
```

3. try login using the below command, if success you should only require to enter password once.

```
ssh kupe
```
