

[repo] Qcore

URL: <https://github.com/ucgmsim/qcore>

Summary

Functions and programs commonly used by codes from various repos.

Current Status : Mature

Codes have been extensively used, and reasonably mature. Automated testing with limited coverage runs every Friday evening.

Known Issues

1. Test coverage is limited, and we often keep the stable version (not the latest) of Qcore lib on Kupe to avoid running into issues.
