

Rebid

Current QuakeCoRE funding spans the period 2016-2020. The QuakeCoRE Directors and Leadership Team are currently leading the development of the rebid document for submission to the Tertiary Education Commission (TEC) in late 2019 (expected).

This page contains information as to the current state of this submission. Note that, by the nature of this process, many areas are developing in parallel. The 2019 QuakeCoRE Annual Meeting will provide the most coherent picture of the proposed research in the 2021-onward period that it being proposed.

Summary of research structure

[Powerpoint slide summary](#)

Public workshops:

QuakeCoRE email newsletters are conveying the specific times of public workshops associated with each of the different Disciplinary Focus Areas and Grand Challenges. Please keep track of the timing through email communications.

White paper documents:

Each workshop is providing a white paper as a summary of the strategic thinking in each of the different programme areas. Please get in touch with the relevant programme area leader (conveyed in the QuakeCoRE emails) to request to be added to the list.
