

Infrastructure Research Day 2018

Infrastructure Research Day 2018: Integrating Research Into Practice

Summary

Date: 17 October 2018

Venue: LINZ, Wellington

Objective

The objective of the Infrastructure Research Day is to provide an opportunity for practitioners and researchers to interact to:

- Improve the direction and effectiveness of research
- Improve industry-research collaboration
- Improve alignment across national research programmes
- Identify real time issues and opportunities

Presentations

- [AF8](#) (Angus McKay)
