Reporting

- College reports have been sent out, and are available on the UC Research Repository statistics pages .
- New and popular items are now included in College reports, highlighting the interest in current UC research.
- Google analytics are being gathered to improve our understanding of who is accessing the UC Research Repository. Results of this should be available next quarter.

Priorities

- Contact researchers who have not signed a repository deposit licence (around 400 full time academic staff).   Deposit licences provide the UC Library with the authority to add to the UC Research Repository.
- Promote the UC Research Repository to UC researchers and encourage deposits – the goal is to increase the rate of deposits by 10% by March 2014.

New and Popular

These are the most popularly downloaded recent additions to the repository. They were deposited within the last 18 months.
