Notes about the reports

Downloads are the number of times the item (a pdf or another document) has been retrieved from the UC Research Repository, not counting search engines or harvesters. Measuring web metrics is an imprecise business, but these numbers are as reliable as we can make them.

Copyright and the UC Research Repository

The UC Research Repository provides open access to UC research outputs where copyright allows.

New and established researchers are invited to deposit open-access copies of their research in the Repository. Deposits are checked by Library staff to ensure they are fully compliant with publisher copyright and the University Library is happy to provide training and advice to individuals or groups.

About the UC Research Repository
