

ENGAGE

Best Practice Disaster Rebuild

Infrastructure Research Day

ENGAGE - *information*

15 October 2018

▶ MATT THOMAS

▶ In consultation with UC Quake Centre

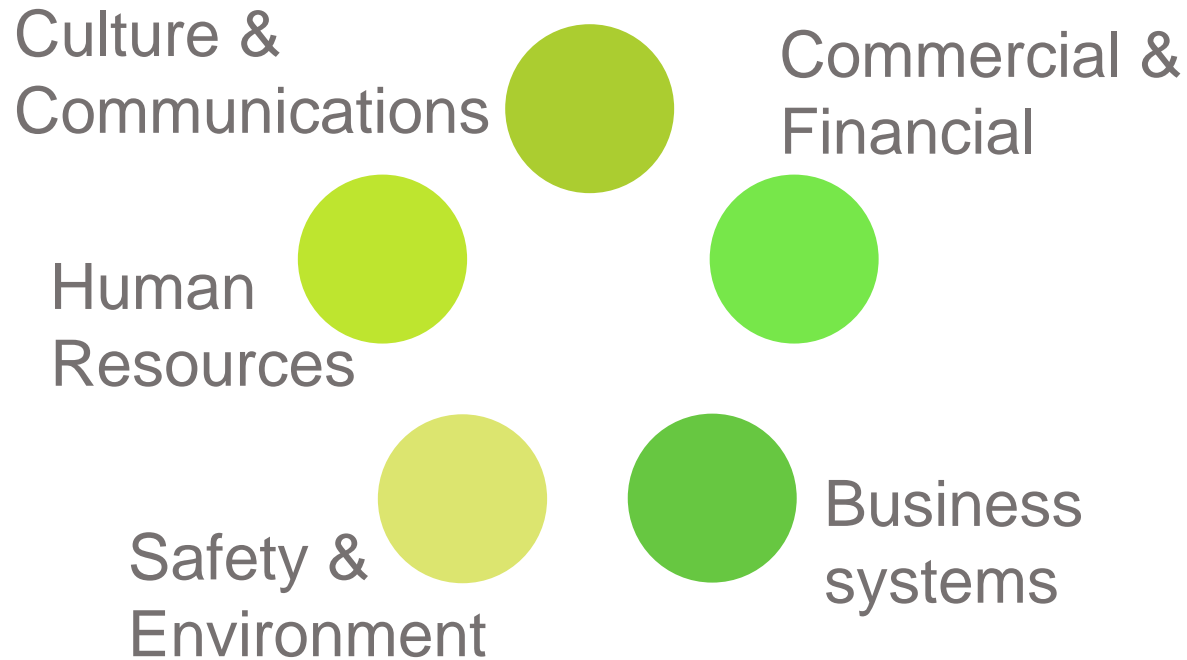

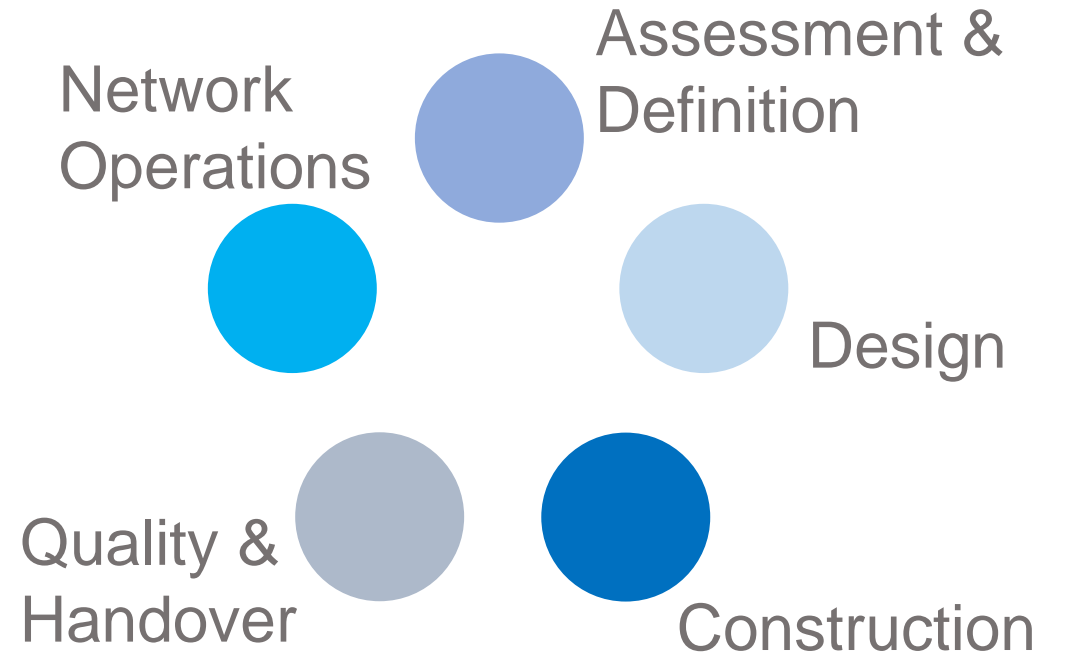

Shared information system - overview

Support activities

Operations

ENGAGE – Not-for-profit service

Governance – multi-party

Knowledge base

Management team

Systems

Shared Action Framework

Shared Information System

Advisory Groups

Network

Imagine sharing information.....

Where you could see:

- Who's who and doing what
- What's where
- What's needing, being done
- What's first, next, later
- Who's paying
- Helicopter and detail views

ENGAGE
information
system

And you were:

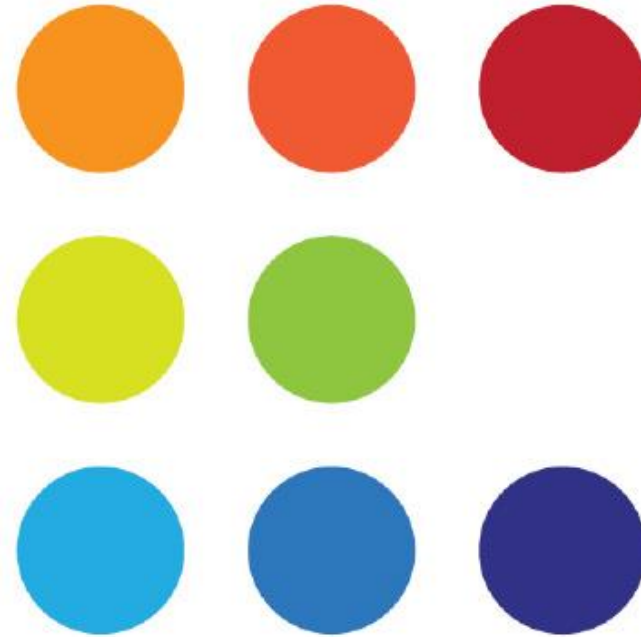

- Taxpayer
- Government
- Governor
- Operations
- Owner
- User
- Community

ENGAGE

Shared action framework - overview

ENGAGE

Rebuild team

Lessons

DISASTERS – the challenges

- Urgency
- Disconnections – sectors and professions
- Scope and work definition
- Channeling funding
- Establishing priorities and gaining approvals
- Gathering resources
- Financial control
- Visibilityand many more.

The concept - **ENGAGE**

- Not-for-profit
- Facilitation service for disaster rebuild
- Capability blueprint

Providing

- Knowledge sharing
- Processes and technology for all
- Partnership opportunities
- Leadership capabilities.

ENGAGE is also

- An open platform
- A collaborating community, with....
 - a maintained small core
 - common beliefs and intentions
 - rules of engagement
- Maintaining a nation-wide network
- Drawing from a range of advisors.

What is the result?

Features

- Assembly of funders, owners, delivery, communities
- Small integrated core team
- Supportive roles

Involving

- Established relationships
- Shared action framework and information system
- Readiness for project, programme or portfolio.
