

### 1 Turning ON the screen

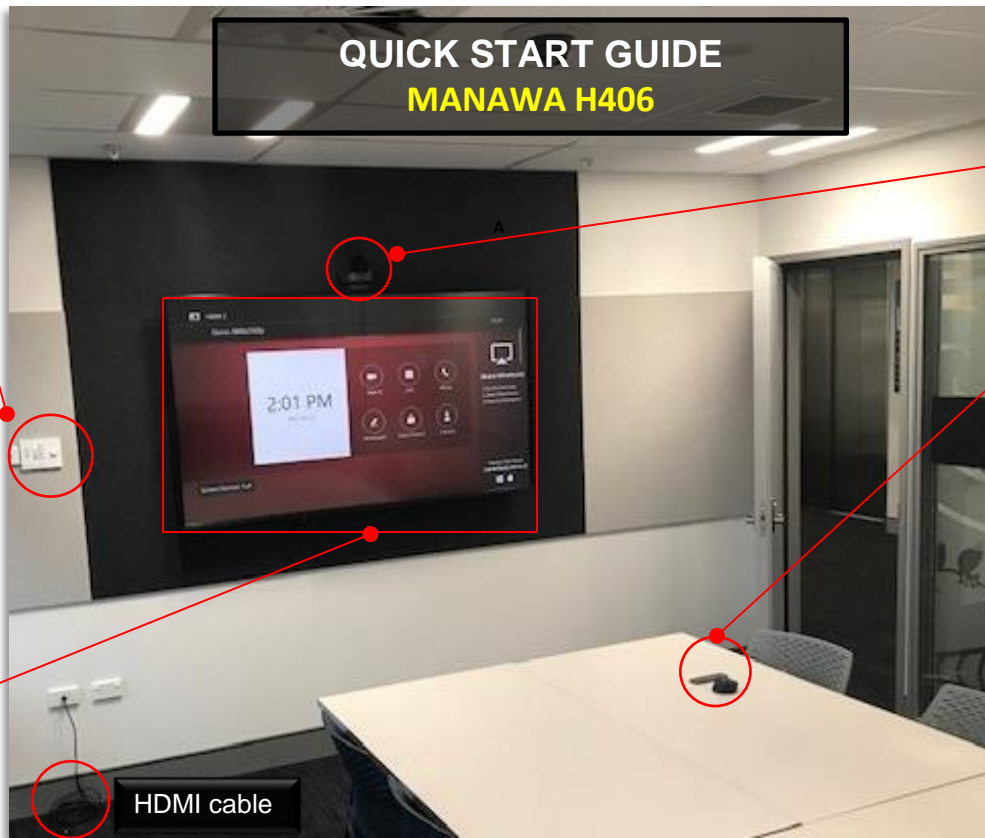

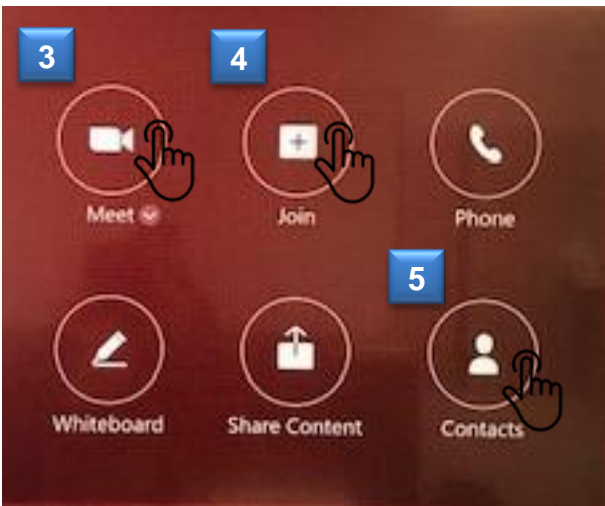

Press PC on the AMX button panel which will display the default wallpaper on the TV screen.

Always press power OFF when finished.

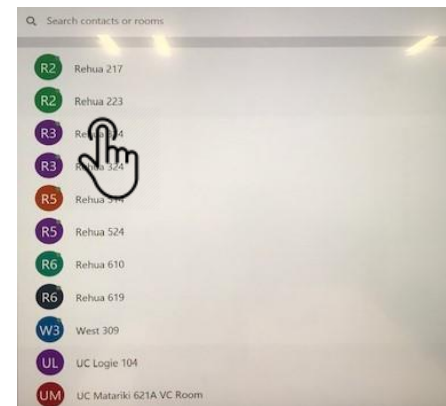

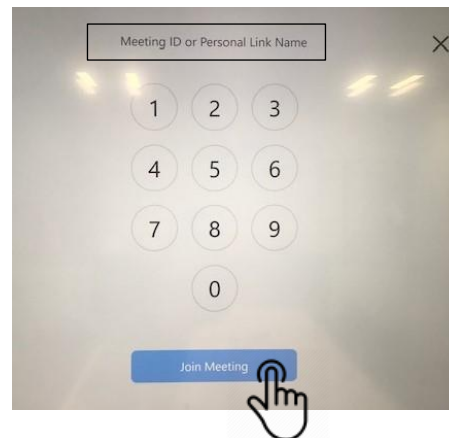

2 The LED TV has interactive touch screen overlay glass allowing touch controls in the **Zoom menu** below.

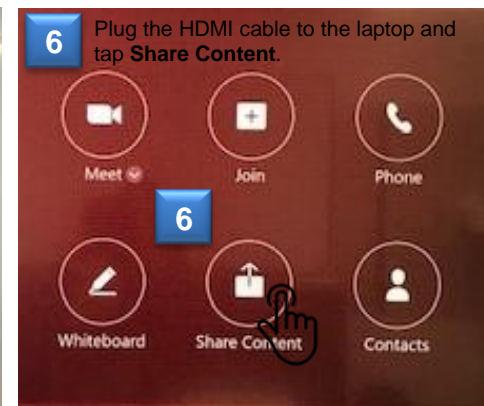

There are 3 ways to start a Zoom Meeting in this room:

- 3 Tap the **Meet** icon to initiate the meeting using the room's meeting ID listed as 203-372-827.
- 4 Tap the **Join** icon and enter the **MEETING ID** on the number pad then tap **Join Meeting** to enter the meeting.
- 5 Tap the **Contacts** icon to display other Zoom rooms then tap the room that you intend to have a Zoom meeting.

- **Mute/Unmute Microphone:** Mute or unmute the room's microphone.
- **Start/Stop Video:** Start or stop the room's video camera.
- **Share Content or Camera:** Display instructions to share content from your laptop or mobile device.
- **Camera Control:** Change PTZ camera settings, presets, or switch to a secondary camera.
- **Manage Participants / Participants:** View the meeting participants. If you're the host, you will see controls to manage participants.
- **Start Recording:** Start recording to the cloud.

6 Plug the HDMI cable to the laptop and tap **Share Content**.
