

Web Conference Agenda (24 May 2016)

Agenda for 24 May VC Call:

1. Introduction of new participants
2. Announcements (MoU with ILEE, monitoring of progress, other announcements?)
3. Presentation by Lucas Hogan (Collaborative framework for largescale structural testing between New Zealand research institutions and Swinburne University of Technology)
4. Presentation by Chris Motter (Loading Protocols and Limit State Criteria for Laboratory Testing)
5. How QuakeCoRE Technology Platforms can support to F4 research – Discussion
6. Annual Meeting and SAVI Workshop

Important Announcements:

- Updated presentation schedule is attached. All dates are 2016. [Flagship 4 VC schedule.pptx](#)
- Masoud Moghaddasi (masoud.moghaddasi@canterbury.ac.nz) will be helping facilitate VC calls and setup wiki page for F4.
- If you have previously given a presentation (Alessandro, Tobias, Charles, Ken, Chris) please send this presentation to Masoud for posting on Wiki page.
- We want to list other non-QuakeCoRE funded projects relevant to the strategic objectives of Flagship 4 on the Wiki page and engage these researchers in the activities. Please let Masoud know of any projects to include.
- Please feel free to encourage your students to attend the Flagship meetings.
- We are looking for better facilities to help improve the communication during the VC calls. We will let you know if we identify a different venue.
- Please contact Masoud, myself, or Stefano if you have any suggestions to improve the VC meetings.
