

Infrastructure Research Day 2019

Infrastructure Research Day 2019: Integrating Research Into Practice

Summary

Date: 17 October 2019

Venue: Tranga, Christchurch

Objective

The objective of the Infrastructure Research Day is to provide an opportunity for practitioners and researchers to interact to:

- Improve the direction and effectiveness of research
- Improve industry-research collaboration
- Improve alignment across national research programmes
- Identify issues and opportunities

Presentations

- [Deep South](#) Anita Wreford
- [Built Environment RNC & QuakeCoRE](#) Liam Wotherspoon
- [QuakeCentre](#) Robert Finch
- [Building Innovation Partnership](#) Larry Bellamy
- [Better Decision Making](#) Theuns Henning
- [3 Waters Data Portal](#) Greg Preston
- [Resilience to Nature's Challenges](#) Richard Smith
- [Resilience in Practice](#) James Hughes
- [Research for Infrastructure Strategic Planning](#) Ajay Makhija
- [Climate Adaptation and Asset Management](#) Theuns Henning
- [BRANZ & Infrastructure](#) Anna de Raadt
- [EQC Research Agenda](#) Jo Horrocks
- [NZTA Research](#) Stuart Woods
- [Global Risk & Vulnerability Studies](#) Conrad Zorn
- [Transpower](#) Steve Peake
- [Riskscape & NZ Flood Exposure](#) Ryan Paulik
- [Electricity Distribution Resilience Framework](#) Duncan Maina
- [AF8](#) Alice Lake-Hammond
- [Transport Resilience Research](#) Seosamh Costello
- [Is Procurement a natural hazard?](#) Steve Raynor
- [Volcanic Impacts on Infrastructure](#) Tom Wilson & Natalia Deligne
- [Landslide Research](#) Sally Dellow
- [Shallow Groundwater Hazard in Urban Environments](#) Helen Rutter
